

BIODATA

Name: - Dr. Ashok Kumar Upadhyay

Qualification: - Ph.D.

Research Interest: - Vector Biology and Vector Control and Management

Achievements in past two years: -

- Study on estimation of malaria disease burden to support malaria elimination in Punjab. This is a first step towards elimination of malaria, the disease burden study was carried out along with studies on vector prevalence and their response to insecticide being used in the public health program .

Research Publications 16: -

Publications over past two years:

- Taruna Kaura, Jaspreet Kaur, Ayush Sharma, Ashish Dhiman, Mangesh Pangorta, **A.K.Upadhyay**, Gagandeep Singh Grover& Surya K.Sharma(2019),Prevalence of submicroscopic malaria in low transmission state of Punjab: A potential threat to malaria elimination. J Vector Borne Dis.56March 2019,78-84.

Professional Memberships:

Fellowship/Membership of Scientific Societies:

- Life Member, Indian Society of Parasitology.
- Life member, National Academy of Vector Borne Diseases.
